

Aline

The pattern on the Aline creates a nice depth and gives character to the wall as well as sound reduction in the room. Depending on how the Aline is placed and colors are selected, a variety of patterns can be made. Simplicity and quality of good design lasts in the long run. By May Stockholm designer's vision is to create unique products that make everyday life more beautiful.

Rewards

As Aline was introduced it got International recognition by Archi Expo. It is i-NOVO Awards 2018 Design Selection.

By May Design Studio

By May is a design studio based in Stockholm. Maria Bergström and Johanna Örn both have a genuine Textile design education from Konstfack and the Swedish School of Textiles. They work with their own collections of products as well as do designing for clients.

"We create unique and functional interior design details. Our focus is surface pattern design and we love working with refined color and material combinations. The heritage of Scandinavian design is always present in our design work. Such as the simple graphic patterns, the colors and the genuine materials that we choose to work with in our collections.

By May has a conscious profile and we choose sustainable materials of high quality into our products."

Materials

- Aline has Negative Carbon Footprint.
- Yeseco products are manufactured using carbon dioxide binding natural hemp- and flax-fibres and recycled wood and plastic fibres.
- All materials used are fire resistant and safe for indoor air quality.

Structure

- Upholstered, pressed in form.
- Thickness 4,5 cm
- Size 43x58 cm, upholstered with Convert fabric
- Size 40x54 cm, upholstered with wool fabric
- Weight 0,9 kg

Installation

- Aline can be attached to the wall by Velcro type strips or it can be glued directly to the wall.

Acoustic Properties

- Sound absorption Class A, α_w 0,90
