

# Wave Screen

Wave pattern creates a nice depth and gives character to the screen as well as sound reduction in the room. Simplicity and quality of good design lasts in the long run. Johanna Lindgren-Örn's vision is to create unique products that make everyday life more beautiful.

## Materials

- Wave screen has Negative Carbon Footprint. Yeseco products are manufactured using carbon dioxide binding natural hemp- and flax-fibres and recycled wood and plastic fibres. The used fabric is lamb wool.
- All materials used are fire resistant and safe for indoor air quality.

## Structure

- Upholstered with wool fabric, pressed in form.
- Thickness 4,5 cm
- Panel Size 100 cm x160 cm
- Weight 7,4 kg

## Feet

- The Floor Screen has feet made out of birch and are available in white or ebonized grey.

## Acoustic properties

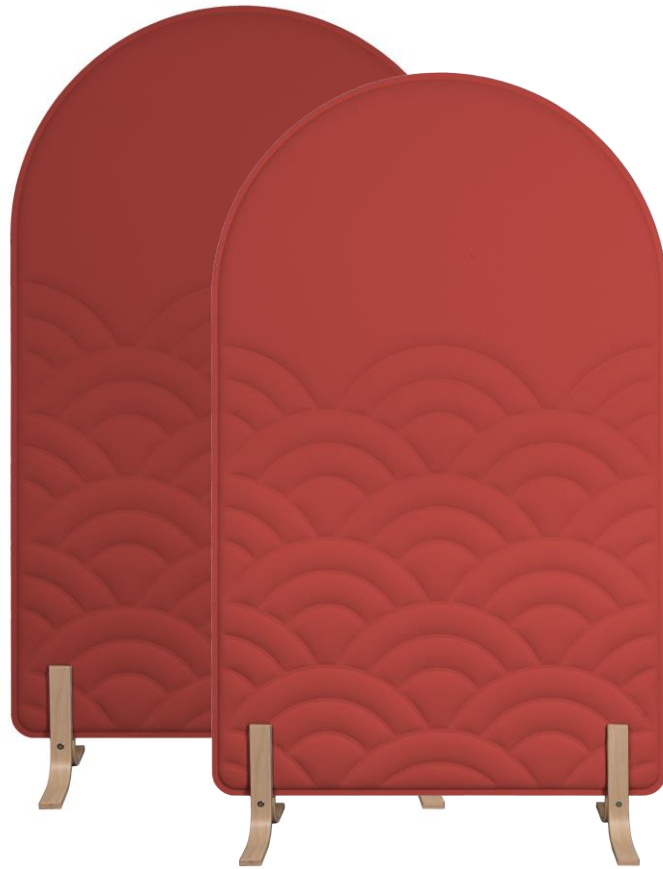

Wave- Screen placed far from the walls  
ISO 11654 Sound Absorption Class C,  $\alpha_w$  0,65 (H)

## About the Designer

Johanna Örn both have a genuine Textile design education from Konstfack and the Swedish School of Textiles. She works with her own collection of products as well as do designing for clients.

"I create unique and functional interior design details. My focus is surface pattern design and I love working with refined color and material combinations. The heritage of Scandinavian design is always present in my design work. Such as the simple graphic patterns, the colors and the genuine materials that we choose to work with in my collections.
